

# My first markdown

The quick brown fox jumps over the lazy dog.

---

Example of replace yaml value (title): Sample file 01 ---

Example of replace yaml value (title) for a second time:  
Sample file 01 ---

Let us bring other YAML values into play:

- Author = Bob Wibble
  - Language = { {lang uage} } - this will not be substituted
  - Random = The quick brown fox jumps over the lazy dog.
- 

Example of yaml value not found (bob): { {bob} }
